

SAFETY RECALL NOTICE REGARDING TISAS 1911 PISTOLS DEALER/DISTRIBUTOR NOTICE

To better serve our customers, Tisas USA is asking all dealers and distributors to assist in contacting any customers who have purchased any of the pistols subject to this recall. If you do not wish to contact your customers regarding this issue, we will gladly accept customer contact information to reach out directly. Information can be forwarded to info@tisasusa.com along with any questions you may have on your customers behalf. If you have any of the subject firearms in your inventory, do not sell or ship them before we perform the safety inspection described below. Customer service will arrange for shipping back to our Knoxville service center at our expense. We thank you for your cooperation in this matter.

Tisas USA has recently learned of a potential safety issue with certain Tisas USA 1911 pistols. Tisas USA is voluntarily initiating a recall of these pistols to protect the safety of its customers due to the possibility of the hammer following the slide forward when chambering a round. While the chance of this occurring is extremely remote, and we are not aware of any injuries that have occurred because of this condition, Tisas USA is immediately implementing this recall of Tisas USA 1911 pistols.

If your pistol falls within the affected serial number range, do not attempt to load or fire your Tisas USA pistol. Doing so could possibly lead to property damage or injury.

Tisas USA will upgrade any affected pistols in the order in which it is received for inspection and upgrade pursuant to this recall. Tisas USA will supply affected customers with a return shipping label and will cover any expenses related to the inspection and upgrade of the subject firearms.

CHECK YOUR SERIAL NUMBER
