**Notice to Nikon Dealers and Distributors of the Nikon P-22 2-7X32 NikoPlex RifleScope (Product #8498, UPC 018208084982)**

While Nikon takes great measures to assure high quality in its products, we have learned that the distances marked on the elevation adjustments are incorrect on some of the standard velocity elevation turrets and the hyper velocity elevation turrets included with Nikon P-22 2-7X32 NikoPlex RifleScopes that were shipped to you prior to November 1, 2012.

**Indications**

You can determine whether your turrets are affected by examining the distance markings on the elevation adjustment of the turrets. If the distance marking's on each of your present elevation turrets continues past the halfway point of the circumference of the turret, the turret is incorrectly marked.

This applies only to the elevation adjustment and does not apply to the windage adjustment.

**Affected products**

All P-22 2-7x32 NikoPlex rifleScope with Rapid Action Turret feature that you received prior to November 1, 2012. All shipments after November 1, 2012 have been corrected.

**Product # - 8498 & UPC - 018208084982**

Nikon has recently issued a Service Advisory that is posted on our Nikonusa website alerting users in possession of the Nikon P-22 2-7X32 NikoPlex RifleScope of corrective measures made available by Nikon for the affected turrets. Those corrective measures are available to such users directly from Nikon.

We are requesting that you cease selling and return to Nikon Inc. all units of the Nikon P-22 2-7X32 NikoPlex RifleScope in your inventory that you received before November 1, 2012. If you are a Distributor, we are also asking that you ask any of your customer resellers that purchased the Nikon P-22 2-7X32 NikoPlex RifleScope from you to cease selling and return to your company all units of the Nikon P-22 2-7X32 NikoPlex RifleScope in their inventory, and for you in turn to return these units to Nikon.

If you still have inventory from any shipment of P-22 2-7X32 NikoPlex Riflescopes received prior to November 1, 2012, please contact **Cherilyn Ferraiuolo at 631-547-8632** or **cferraiuolo@nikon.net** to arrange for the R/A.

Nikon will continue to take all possible measures to prevent issues like this from occurring again in the future. If you have additional questions about this Service Advisory, please contact Nikon Sport Optics at **1-800-Nikon US (1-800-547-4200)**, 8:30am to 4:45pm (Eastern), Monday to Friday or contact your local sales representative.
