

SUREFIRE GUN MAGS LLC

NOTICE TO DISTRIBUTORS AND DEALERS

May 1st 2008

We regret to announce that we are recalling the **Polymer 7.62x39 15-round** and the **7.62x39 20-round mags, Product No. SSGMP76215 and Product No. SSGMP76220, respectively.** Because of a recent modification to our mold, these particular capacity mags now hold one(1) additional bullet more than they are designed to hold.

Our sales records indicate that you have purchased the afore-mentioned magazines since the modification took place. Please send back to us the mags remaining in your inventory via FedEx third party mailing, using our FedEx Account No. 3299-2850-0. Simply indicate Third Party Shipping and insert our account number on the form when you fill out the information for the shipping label. The mags will be fitted with our replacement part and sent back to you. Please allow 2-3 weeks for this operation.

We would appreciate any assistance you can give us by locating companies or individuals to whom you have sold these mags. We will be putting a recall notice on our web page as well as sending this notice to you via email and USPS.

We will send a modification part to all of your retail customers which will remedy the problem without them having to return the mags to us. They will merely have to send an email to us at surefiregunmags@bellsouth.net, giving us their name, address, phone number and the number of mags of the recalled sizes in their possession.

We regret that this problem has occurred and apologize for any inconvenience this may cause but feel that this situation can be resolved in a timely manner. Should you have any questions or need further information, please contact Michelle Roland at 865-980-0510 and she will be happy to assist you.
